Course set up + **distances** must be as accurate as possible

Fencing is not required for video trials, but two sides of the ring should be marked with 10' distances for course build

Course Design and Challenges

Courses will include 12 to 25 obstacles, depending on the division or level. Distance challenges will be appropriate for each level and will use a Distance Handling Box, Distance Handling Area, or Challenge Lines. It is encouraged that you practice, before submitting your videos

Move-up videos must be submitted on a different day than the title run.
